

STRUCTURAL OSB PANEL

MANUFACTURED FOR PANELIZED FLAT ROOF SYSTEMS

RAISING THE STANDARD ON PANELIZED FLAT ROOF SYSTEMS

As part of West Fraser's Engineered Strand Products (ESP) line, TruDeck is manufactured to a higher standard and engineered for superior strength, stability and fastener holding.

- Available in 4x8 and 4x10
- TruDeck is sized for spacing
- Smooth face for flat roof installation
- Manufactured to meet or exceed PS2 standards
- Structural 1 available in 15/32, 1/2, 19/32, 23/32
- Raw materials are sourced from responsibly managed forests
- Nail lines run the length of the panel for easy and fast installation
- Exposure 1 rating that can withstand normal delays in construction
- TruDeck carries the APA rated sheathing grade stamp ensuring quality is built into every panel
