

The Start of a Great Build

Trubord meets these expectations!

- Built to deliver reliable performance while helping builders reduce costs and improve efficiency.
- Protected by a 25-Year Limited Warranty.
- Distinctive edge color makes product identification quick and easy on the jobsite.
- Easy-to-install panels help minimize tool wear and support faster construction.
- Engineered with an advanced resin system and rigorous quality control for dependable performance.
- Offers outstanding value and long-term durability for today's builders and homeowners.
- Meets or exceeds PS 2 standards and complies with building codes across North America.

**Trubord Rated Sheathing.
Exceptional Value for
today's builders.**

Build Better!

Reduce Costs!

Grow Profits!

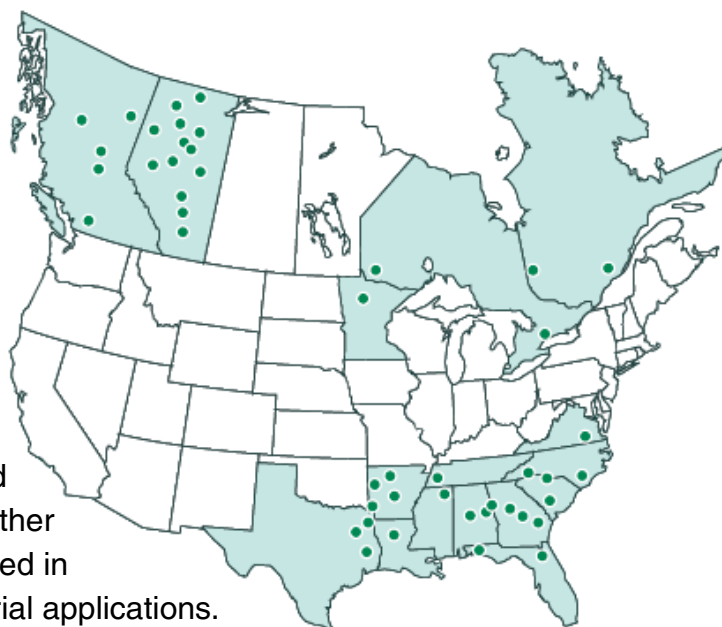

We asked builders what they wanted in structural sheathing panels and they told us they needed:

- A quality product to reduce construction costs and shortened cycle times
- Identification on the panel and the unit to show quality products being used
- A cost that provides real value to the builder and homebuyer
- A solid warranty
- Able to withstand minor construction delays
- Acceptance by building codes and industry standards
- Wood fiber sourced from responsibly managed forests

Trubord stands out in the structural sheathing crowd.

Build Better With Renewable Wood Products

West Fraser is a diversified wood products company with more than 50 production facilities in Canada, the United States, the United Kingdom, and Europe. From responsibly sourced and sustainably managed forest resources, the Company produces lumber, engineered wood (OSB, LVL, MDF, plywood, particleboard), and other products including pulp. West Fraser's products are used in home construction, repair and remodelling and industrial applications. We are committed to helping builders, build better, faster and with greater efficiency.
