

The Start of a Great Build

A Great Build Starts with a Great Sub-Floor

- Engineered OSB subfloor panels available in a variety of thicknesses to suit residential and multifamily construction needs.
- Built for superior performance, helping builders improve efficiency and reduce overall project costs.
- Protected by a 25-Year Limited Warranty.
- Recognized across North America, meeting or exceeding PS 2 standards and applicable building codes.
- Maintains structural integrity through typical construction delays and weather exposure.
- Distinctive face stamp and turquoise edge seal ensure easy product identification and installation confidence.
- Delivers the value, quality, and reliability demanded by today's builders and homeowners.
- No added urea-formaldehyde resins and CARB exempt.

Build Better!

Reduce Costs!

Grow Profits!

TruFlor T&G subflooring has been providing exceptional value to builders since 2008.

**TruFlor stands out in the standard flooring crowd.
If it doesn't say TruFlor on the panel – it isn't.**

Build Better With Renewable Wood Products

West Fraser is a diversified wood products company with more than 50 production facilities in Canada, the United States, the United Kingdom, and Europe. From responsibly sourced and sustainably managed forest resources, the Company produces lumber, engineered wood (OSB, LVL, MDF, plywood, particleboard), and other products including pulp. West Fraser's products are used in home construction, repair and remodelling and industrial applications. We are committed to helping builders, build better, faster and with greater efficiency.
